University of Regina | FACULTY OF ENGINEERING & APPLIED SCIENCE

Project Status report

Name: Mfonisoabasi Idorenyin James

Community (UN SD goal): Goal 4 Quality Education

MVP # 3

Sprint cycle dates: November 30th 2021

Project Name	CURL
Blurb	Section 4.4 of the UN Sustainable Development Goal: By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship. The development of this application is to connect free educational resources to children in a well structured and organized manner, to help make it easy for people to pick up new skills without being overwhelmed about where to start with the vast amount of content available on the internet.
For Week Ending	December 2nd
Project Status	Green
Status Description	The overall project status is Green and I am content with all the progress that has been made towards this project within the time limitations of semester

Activities—During the past sprint cycle

- more code refactoring
- more curriculum and topics added
- better explanation to topic headers
- updated links to each new topic

Project Issues

No current issues being faced in this current iteration of the project

Project Changes

Not much has been changes have been made. The feedback from last week's discussion has been implemented to the best of my ability

Activities—Planned for Next Week

If I were to work more on this application after this class, it might be safe to tackle adding new features to help community interaction such as a way to post discussions in the app.

Reflection

Do you feel "on track"?
Yes, I feel on tack

What progress do you particularly feel good (great) about?
I feel really great about having set goals and being able to achieve those for this application

What barriers (if any) do you feel is/are a current impediment to success?
Just like previous MVP the only that could be a hindrance would be time constraints

What help (if any) do you require to move positively forward?
None currently at this stage

What questions or concerns do you have (if any)?
None currently at this stage
